
AFTER VISA WHAT DO I DO??

AFTER VISA THE FIRST THINGS THAT YOU NEED TO DO IS?

First and Foremost

There are certain things that have to be done in advance, i.e., as soon as get you your visa - much before the flight.

- Learn driving and get the driving license and an International Driving Permit. This usually takes 40 days. So it's better that you start off early.
- Learn to cook.
- Apply for a bank loan (if necessary)
- Make your passport valid for 6 months more than your stay indicated in your I-20.

Immunization:

Find out the necessary immunization info and get everything done. Generally there are some vaccines like Hepatitis B, which require 3 doses once each month. So do it early. These vaccines are very costly in US and you certainly do not want to start spending money the moment you land in US. Get requisite immunization done (especially MMR). Also there will be HEALTH FORMS which you will need to get signed by a Doctor while you are here. You need to carry this form while you fly. Get requisite immunization done (especially MMR) Get prescriptions & medicines for all common ailments (the technical name of the medicine along with Indian/US brand name)

Important: Complete the health documentation that you may have to submit when you arrive in US.

Tickets:

Hey!!!! go and block the ticket first.

Try and book a direct flight to your place, even if you have to take a local airline it is better and safer than greyhound(local bus in the US of A), which usually has its stops in the shadiest area of towns. Buy a single ticket all the way through – add on are very expensive. Avoid change of airline. A direct flight is the best.

- If change of airline can't be avoided' leave at least 4-6 hrs gap between the scheduled arrival of one flight and the scheduled departure of the connecting flight.
- Baggage is usually safe with a single airline - change of airline sometimes leads to misplaced luggage. Some airlines don't take care of baggage transfer - you may have to personally carry it (check this while booking) and cross check every thing you are promised by the Travel agent with the original air lines. Even if you have confirmed ticket in you hand.
- And remember to ask for student concessions...Generally all the airlines will come up with one or the other discount offer for students...so check all this out before you pay the money.
- Typical expenses: Rs.40, 000 - Rs.50, 000/- (**Varies from Airline to Airline**)

Health Checkups

Get a medical check-up done

Dental check up

Fresh check-up, especially if you have a major ailment

Is Dental Care necessary?

After extensive survey and upon seeking the opinion of senior's abroad a conclusion on the need for dental treatment while in India has been made mandatory.

- Mouth is the mirror of human health. Taking care of oral cavity is a prelude to keeping overall health fit.
- The rationale behind taking dental checkup and treatment while in India is:
 - To avoid possible dental treatment abroad as it is a well-known fact that dentist in U.S charge exorbitantly high.
- Under inevitable circumstances if you are required to go for dental treatment. You need prior appointment of two to three weeks in U.S
- Even Students are required to bear the huge expenditure, as dental care is not covered under health insurance in the U.S.
- It is ironic that the materials we use in India are the same used by dentists in U.S, but the payment made for the dental care is in dollars while the number being the same in India.

Eye Check Up:

Get your eyesight checked - get a new prescription. Buy at least one extra pair of glasses or a pair of contact lens.

- Put identification marks and labels on both the inside & outside the boxes) apart from this, the airlines will also provide you with adhesive labels).
- Boxes with independent top & bottom are preferable.
- Box specification: As an example of Air India economy class baggage specifications to the USA are given below. Note the specs. may be different for other countries/airlines.

 - Don't buy purse (wallet for carrying cards can be bought in the US) Carry an organizer
 - Wear your shoes to save space in the box. If needed buy only leather shoes (other types of shoes are cheap in the US). For some weather conditions, Indian leather shoes may crack.

Don't worry yourself if you can't bring any of the stuff listed above - most of the items are available pretty cheap in the US (Made in China). Exceptions are leather goods, formal wear. In a month or two you will be able to get anything you want.

- Get a set of transcripts in case you apply all over again for a PhD.
- B.Tech. Degree certificate (lamine it in thin plastic is possible).
- Get 2-3 passport size photographs.
- Get an address/phone number diary.
- Have a set of copies of visa, passport, I-20 in each piece of luggage.

- Keep passport, visa, I-20, and other admission documents in the handbag you'll carry on your shoulders all the time.
- Confirm your ticket a couple of days prior to the flight directly through the airlines you are flying no matter how reputed your travel agent is.
- Let me repeat this, get a driver's license and an IDP.

IN THE LAST WEEK:

- Call up and find if there is any change of the schedule of the plane (inform the people coming to pick you up of any such change).
- Get ready to face the long journey.
- Bid adieu to all concerned.
- Find out the name of the person who is coming to pick you up at the airport. Remind those people of the flight timings, airline no, your name. Inform all these to your people at home.
- Relax the day before journey, and check all the documents you are taking with you once again.
- Arrange for the conveyance if you don't have a car. You can book with any private transport facility like City cabs.

ON THE DAY OF THE FLIGHT AND ON – BOARD:

- Since it is going to be a long flight wear something comfortable (cotton dress + full hand shirt). Wear your shoes - in flight you can remove them (some airlines give in flight shoes - else relax in socks).
- Check all the documents once again and keep them at appropriate places.
- Be at the airport 3-4 hours before the departure.
- Relax during flight, sleep as much as possible.

-
- For vegetarians - watch out before you eat - you may get non-veg even if you had asked for veg. Veg food is generally bland - fruits/juices are good choices. (Before ordering anything on board check if, you have to pay for it separately). Don't hesitate to ask questions.
 - Once out of India be very careful (from sheer experience of seniors). Don't trust anyone. Don't hire a taxi (unless emergency) till you reach your destination. If required don't hesitate to spend money.

ONCE OFF THE PLANE:

You are now in the USA! Once you are out of the plane go straight to the immigration counter - rush for them to beat the queue. It might take 0.5 - 1 hour here. Keep your I-20, passport, admission & aid letters ready. They might ask a few questions like

- Is this your first time in the US? Student? F-1 Visa? Which Univ.? They will attach an I-64 card to your visa.
- Then go to the baggage counter to fetch your luggage. Pick up a cart (you get this at a machine for \$1) to carry the bags. Then pick up your bags as they come out on the conveyor (suitable eye-catching labels help here) we suggest you tie your baggage with rope of a bright color that is visible from a distance. All this is to make your baggage appear distinct. If you don't get your baggage, inform the inquiry section - you may have to wait 0.5 - 1 hour here.
- Cart your baggage to the nearby customs. If asked tell them that you are a student, F-1 visa, school, dept., coming to US for the first time if asked to open your baggage do so slowly - do not mess up the place. If asked about the "masala powder (podis)" tell them that they are "dried Indian spices" to make traditional Indian food like curry. Rarely they might ask you to go the agrisept nearby - its a pain. If asked about "vibhuti" tell them that it is a holy Hindu powder.

Note: In most cases, you will not be asked to open your boxes at all & you will be simply waved through.

- Now go & wait at the nearest exit for the guys who are supposed to pick you up. If nobody turns up after some time (say 0.5 hour) make a collect call (at public phone dial a "0", get the operator & ask for a collect call) else call
 - ✓ Your Prof
 - ✓ Department
 - ✓ International Students' Office
 - ✓ Admissions Office
 - ✓ Any Indian guy in the directory

Go and ask for an announcement to be made over the PA system. Get a card, write your name & hold it up.

- Never leave your baggage unattended. Don't go out of the airport until somebody comes & picks you up. If you have doubts about the guy who comes to pick you up, don't hesitate to ask for his ID. (All this is of course being a little extra cautious). Make sure you are pleasing while you identify his identity. Lest you offend the person who has come to help you.
- Once you reach your friend's house (or your intended destination) call home & inform them of your reaching safely. If you get your hand on Internet, do type few words of your experience and email it.

FIRST FEW THINGS THAT YOU NEED TO DO IN AMERICA:

There are certain primary things to be done on reaching US. They are discussed in this section

- Your first task is to meet the foreign students or the advisors in the International students' office (ISO) or Grad Advisor or administrative secretary. Keep a record of your details (passport, visa details etc). When you leave the US (temporarily or permanently), you have to go there again.
- Meet your prof if you have got an RA or a TA.
- Open a bank account immediately. Ask seniors for a good bank.
- Find an apartment and/or roommates.
- Complete all the official procedures at the school like
 - ✓ Attending the orientation
 - ✓ Getting your student ID
 - ✓ Getting your Social Security Number.
 - ✓ Paying the Fee
 - ✓ Registering for the classes etc..

Generally your seniors or your dept through all these will guide you. So don't worry about that.

ALL THE BEST!!!
